SUMMARY

Computer Science Engineering student with hands-on experience in building AI-powered applications using Python, FastAPI, and modern full-stack technologies. Experienced in developing intelligent systems for personalized tutoring, resume analysis, skill assessment, and career guidance. Strong interest in Generative AI, Large Language Models, AI Agents, and applied machine learning, with a solid foundation in Python, backend development, Data Structures Algorithms, and problem solving.

EDUCATION

Vellore Institute of Technology, Bhopal 2024–2028
B.Tech in Computer Science Engineering CGPA: 9.24/10

Podar International School, Satara 2024
Class XII (CBSE) 92.4%

Podar International School, Satara 2022
Class X (CBSE) 97.4%

TECHNICAL SKILLS

Languages: Python, Java, C++, JavaScript, TypeScript, PHP

AI/ML: Generative AI, LLMs, Prompt Engineering, Google Gemini API, Groq API, SymPy, Pandas, NumPy

Frameworks: FastAPI, Next.js, React, Node.js, Streamlit

Databases: MySQL, PostgreSQL, Firebase

Core Concepts: Data Structures & Algorithms, OOP, DBMS, REST APIs

Tools: Git, GitHub, Docker

PROJECTS

MathGenius AI – Adaptive AI Tutoring Platform [GitHub](#)
Python, FastAPI, Next.js, TypeScript, SymPy, Groq

- Built an AI-powered adaptive tutoring platform that personalizes learning based on accuracy, response time, and topic-wise performance.
- Integrated SymPy for accurate symbolic computation and step-by-step mathematical problem solving, with Groq-powered LLM explanations.
- Developed FastAPI backend services for problem solving, adaptive quiz generation, analytics, and user management, with a responsive Next.js and TypeScript frontend.

CareerCompass AI – AI Career Guidance Platform [GitHub](#)
Python, Streamlit, Google Gemini API, Prompt Engineering

- Built an AI-powered career guidance platform using Google Gemini to provide personalized career insights, skill recommendations, and learning roadmaps.
- Developed AI-driven features for daily study planning, interview question generation, resume improvement tips, interactive quizzes, and career-related assistance.
- Designed a responsive Streamlit interface with structured prompt templates to deliver personalized and beginner-friendly AI-generated guidance.

EXPERIENCE

Web Development Intern – UptoSkills May 2026 – August 2026

- Developed and contributed to frontend and backend modules for web applications.
- Worked on API integration, database workflows, UI improvements, and application performance optimization.

Tech Contributor – GirlScript Summer of Code Jul 2025 – Sep 2025

- Contributed to open-source projects through bug fixes, feature development, and code improvements.
- Collaborated with developers using Git and GitHub for version control and project workflows.

ACHIEVEMENTS

- LeetCode Knight – Contest Rating 2026, Top 1.66% Globally, 370+ Problems Solved
- Smart India Hackathon (SIH) 2025 Internal Round Qualified
- Microsoft Imagine Cup 2026 Participant
- CGPA: 9.24/10

CERTIFICATIONS

- Oracle Autonomous AI Database Certified Professional
- IBM Building Agents with Agentic AI
- Google – The Bits and Bytes of Computer Networking
- Cloud Computing (Elite) – NPTEL
- Market Analytics (Elite + Gold) – NPTEL
